The bar chart below shows Djibouti's total risk scores in 4 domains: (1) Business Interactions with Government, (2) Anti-Bribery Laws and Enforcement (3) Government and Civil Service Transparency and (4) Capacity for Civil Society Oversight. The four domain scores are weighted and combined and a risk penalty is added for individual domain scores that exceed the overall country risk score. Each country is given a score from 1 to 100 for each domain, and for the total bribery risk. A higher score indicates a higher risk of business bribery.

- 2. Anti-Bribery Laws and Enforcement:** Djibouti's score of 50 is moderate.
- 3. Government and Civil Service Transparency:** Djibouti's score of 65 indicates a relatively low quality of administration and governmental transparency.
