The bar chart below shows Tanzania's total risk scores in 4 domains: (1) Business Interactions with Government, (2) Anti-Bribery Laws and Enforcement (3) Government and Civil Service Transparency and (4) Capacity for Civil Society Oversight. The four domain scores are weighted and combined and a risk penalty is added for individual domain scores that exceed the overall country risk score. Each country is given a score from 1 to 100 for each domain, and for the total bribery risk. A higher score indicates a higher risk of business bribery.

1. Business Interactions with Government: Tanzania scores 73 on this measure, indicating high risk of intensive interaction with the government, high regulatory burden, and a high expectation of bribes.

2. Anti-Bribery Laws and Enforcement: Tanzania's score of 27 is low.

3. Government and Civil Service Transparency: Tanzania's score of 65 indicates a relatively low quality of administration and governmental transparency.

4. Capacity for Civil Society Oversight: Tanzania's score of 57 suggests a moderate risk.
