

Saudi Arabia

Overall Risk Score: 50

Risk Level: medium

This score is a composite of the four domain scores discussed below, which are weighted and combined to produce the overall country risk score. Each country is given a score from 1 to 100 for each domain and for the total bribery risk. A higher score indicates a higher risk of business bribery. Assessments of whether a given domain score is “good” or “poor” are made relative to all other jurisdictions within that domain.

1. **Business Interactions with Government:** Saudi Arabia receives a good score of 32 in this domain, based on a low degree of government interaction, a medium expectation of bribes, and a low regulatory burden.
2. **Anti-bribery Deterrence and Enforcement:** Saudi Arabia receives a medium score of 54 in this domain, based on a medium quality of anti-bribery dissuasion and a medium quality of anti-bribery enforcement.
3. **Government and Civil Service Transparency:** Saudi Arabia receives a medium score of 54 in this domain, based on poor governmental transparency and good transparency of financial interests.
4. **Capacity for Civil Society Oversight:** Saudi Arabia receives a very poor score of 76 in this domain, based on a very low degree of media freedom/quality and a low degree of civil society engagement.
