

Iceland

Overall Risk Score: 17

Risk Level: very low

This score is a composite of the four domain scores discussed below, which are weighted and combined to produce the overall country risk score. Each country is given a score from 1 to 100 for each domain and for the total bribery risk. A higher score indicates a higher risk of business bribery. Assessments of whether a given domain score is “good” or “poor” are made relative to all other jurisdictions within that domain.
